ABOUT COLLEGE

Government Degree College Tral, established in 1988, is a beacon of higher education and has become synonymous with academic excellence, innovation, and community engagement. Since its inception, GDC Tral has been dedicated to creating a nurturing environment that encourages intellectual growth and personal development. Our college offers a diverse range of undergraduate programs across various disciplines, ensuring that students have ample opportunities to pursue their academic interests and career aspirations. The curriculum is designed to be comprehensive and contemporary, integrating theoretical knowledge with practical skills to prepare students for the challenges of the modern world.

The college campus is equipped with state-of-the-art facilities that support both academic and extracurricular activities. Our well-stocked library, advanced laboratories, and modern classrooms provide an ideal setting for learning and research. In addition, we have robust sports and recreational facilities that promote physical well-being and teamwork among students. The campus also hosts a variety of cultural and intellectual events, fostering a vibrant community where students can explore their talents and interests.

At GDC Tral, we believe in the importance of holistic education. We emphasize the development of critical thinking, creativity, and ethical values in our students. Through various community outreach programs and initiatives, we encourage students to become responsible citizens who contribute positively to society. Our college also provides numerous opportunities for students to participate in seminars, workshops, and internships, enhancing their practical experience and employability.

About Seminar

The National Education Policy–2020, a long time coming, has laid a clear path for transforming the education system of the country. With significant recommendations to shift the focus of education towards quality and skill development, the Policy aims to revolutionize the Indian Higher Education space to catch up with the global needs of the 21st century. All these years, India's policy goals have been primarily focusing on access, expansion, and specialization with very little focus on skill and holistic development. The National Education Policy 2020 could break from the past by including quality, skill development, and multidisciplinary approach as the critical levers for improving student learning outcomes. While deftly indicating that higher education is much beyond human resource development, it takes a long-term view in terms of the emphasis on flexibility in entry and exit, and the option to skill courses to ensure that our youth are equipped for a rapidly changing job scenario. The Policy is truly forward-looking, innovative, democratic and learner-centric.

To gather innovative strategies for the implementation of various recommendations of the Policy on Higher Education, this two day National Seminar is aimed at gathering views and suggestions of experts and erudite scholars on implementation of the Policy and to provide a well-structured input, along with insights to practitioners of higher education on implementation strategies of NEP–2020. The NEP–2020 has the potential of transforming India into 'Vishwaguru', the global superpower. The policy emphasizes that the curriculum and pedagogy of our education system must be able to develop among students a deep sense of respect towards the fundamental duties and constitutional values; share of bond with one's country; and conscious awareness of one's roles and responsibilities in a changing world

Call for Papers

The original unpublished research papers on various themes are invited from Academicians & Scholars in English

Themes and Sub Themes

* Vision and Objectives of NEP 2020
* Multilingualism and Regional Languages in J&K
